NYI

Making the Case for Hybrid

Thinking about cloud adoption? Find out why a hybrid configuration could be right for your business. Cloud + Colocation = Flexibility, Security and Access to Resources on Demand.
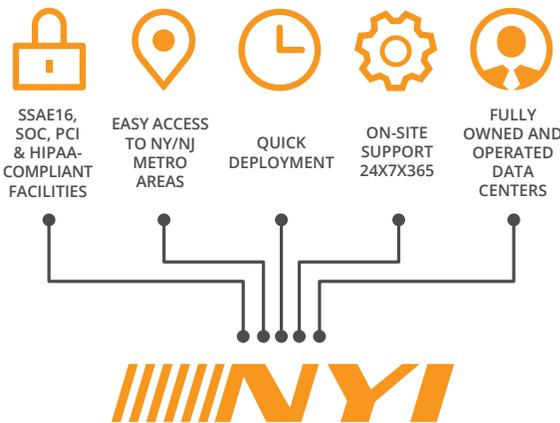

With NYI, you have a secure way to leverage the benefits of cloud computing, while still keeping some assets housed in a physical environment. Whether you are testing or going full production, NYI can help design a reliable hybrid configuration that can scale as your business demands. With NYI's hybrid solutions you can reliably deliver apps, reduce datacenter costs and store data without having the capital expense of building and managing the environment in-house.

The Best of Both Worlds

Choose only the services you want and need

NYI's fully redundant data centers offer:

- SSAE16, SOC, PCI, HIPAA-Compliant facilities
- Easy access to key buildings, data centers and customer locations in NY/NJ metro areas
- N+1 redundancies across security, power, cooling and networking
- Quick deployment and turn around times minus the red tape
- On-site support technicians, staffed 24x7x365
- NYI fully owns and operates our data centers, ensuring professionalism, responsiveness, and accountability for your business

| SSAE16, SOC, PCI & HIPAA-COMPLIANT FACILITIES | EASY ACCESS TO NY/NJ METRO AREAS | QUICK DEPLOYMENT | ON-SITE SUPPORT 24X7X365 | FULLY OWNED AND OPERATED DATA CENTERS |

The Cloud, Come as You Are

- Simply cross connect into the secure NYI cloud and immediately leverage resources on demand
- Flexible pricing options that allow you to pay for exactly the computing, storage and networking resources you need
- Predictable billing models so you know exactly what you are getting
- Access to 7 cloud nodes across the U.S. and U.K.
- Cloud compute: Open compute 2.0 Intel E3, E5 & AMD 6300 solid state sleds
- Cloud storage: Based on NetApp Clustered DataONTap and StorageGRID technology
- Cloud network:
  › Diversified, redundant layer 2 fully-meshed networks
  › Dark fiber access to major POPs allows you to ride the same carrier network the entire way; low latency = fast cloud

Having NYI as your cloud partner allows for easy migration into the cloud from any premise, data center or other cloud environment.

Design your hybrid cloud solution today and instantly accelerate business agility and performance.
