

WHY SELECT 75 BROAD STREET?

Built in 1928 as the headquarters for International Telephone & Telegraph (ITT), 75 Broad Street boasts a long history as a landmark connectivity hub strategically positioned in New York's financial district, providing access to a wealth of telecommunications assets.

Through BROAD STREET CONNECT, tenants enjoy many benefits including:

GETTING UP AND RUNNING RIGHT AWAY

We ensure that your critical telecommunications and infrastructure needs are in place immediately.

EXCEPTIONAL INTERNET CONNECTIVITY

We offer direct connectivity to the backbone of the Internet, which means you enjoy high-speed, dedicated and highly resilient connectivity.

COST SAVINGS

Save money by moving to a building that has a large existing ecosystem of providers in place.

DISASTER RECOVERY AND BUSINESS CONTINUITY

Broad Street Connect has you covered with battery backup (UPS) and generator capacity housed right within the building.

HOTLINE FOR SUPPORT

75 Broad Street has an internal team to answer any telecom-related questions.
